

INKSCAPE: ARROW LOGO TUTORIAL

1. Click the Bezier tool. 
2. Click once on the sheet, then hold CTRL, click again to make a straight line. Click ENTER to finish the line.

3. Open the Fill and Stroke Menu. 
4. Click the Stroke Style Tab. 
5. Set the units to px and enter 2 for the width.

6. Set the markers to the three parts of the arrow. 

7. Click Edit Paths by Nodes tool. 
8. Double-click the middle of your arrow to add a node.

9. Click the Selector tool 
10. Click the arrow, then click again to show the rotate function.

11. Hold CTRL and rotate the arrow three clicks to the right, until it is pointed at a 45 degree angle.

12. Right click the object. Select Duplicate.
13. Rotate the second arrow in the opposite direction.

14. Click the Text tool. 
15. Type your desire text under the arrows.

16. Click and drag a box around all objects. Select Object → Group.

17. Export your logo as a PNG
